PROFILE SUMMARY

I am an experienced Accountant for 4 years. After several years being in the accounting industry, I am excited to pursue Software Engineering to take part in the fast-changing technological landscape today. I have recently graduated and received a Curtin University accredited Certificate in Software Engineering, I have gained hands-on technical skills and understanding of how to apply them for business success. I am looking to build my career in data, and eager to land a junior/graduate role. I can bring drive, passion, and problem-solving skills to your team.
